Happenings of a Day at Home and Abroad.

Railroad vs. Tax Collectors—The Cali System—The Tammany Fusion—Speculations Concerning the Republican.

[Associated Press Dispatches.]

NEW YORK, Feb. 15.—Chas. Stanford was nominated by the Republicans at Schenectady to-day to fill the vacancy in the State Senate caused by the death of Webster Wagner. He has already served two terms and has gained an enviable reputation as a legislator. He is the brother of Ex-Governor Leland Stanford of California.

SIR HENRY PARKES.

A special meeting of the Chamber of Commerce was held to day to meet Sir Henry Parkes and to hear the address by him on the commercial relations existing between this country and Australia. Sir Henry was accompanied by Cyrus W. Field. S. D. Babcock, who presided, introduced the distinguished gentleman who thanked the Chamber for the welcome accorded. He then proceeded with his address, giving a description of the six colonies and indicating that in a few years the group would become a vast empire and a great power.

HIGH WATER.

Ice is breaking up. The grain elevator opposite the city is reported carried away. The water is over the banks of the river.

SARGENT AND CHANDLER.

The Commercial-Advertiser's Washington special asserts that Sargent and Chandler will soon enter the Cabinet.

SAN FRANCISCO BUDGET.

The S. P. R. R. Co. Brings Suit Against the Tax Collectors.

SAN FRANCISCO, February 15.—The Southern Pacific Railroad Company brought suit in the Supreme Court today against the tax collectors and sheriffs of all the counties of the State through which the road and its branches run, asking that the defendants be required to accept the amounts tendered by the plaintiff in satisfaction of tax liens; that the liens be removed and defendants enjoined pending further proceedings under general orders of the State Board of Equalization.

RAILROAD RUMBLE.

Ground was broken at Mojave yesterday on that section of the Atlantic & Pacific Railroad to be built by the Southern Pacific from Mojave to the Needles, on the Colorado River. A large force of Chinamen was on the ground, and there is an abundance of material on hand and en route.

A CREMATION SOCIETY ORGANIZED.

Articles of incorporation were filed this afternoon of the first Cremation Society of San Francisco. The object of the association is the erection and maintenance of a hall in which to cremate the dead and by actual trial seek to popularize cremation and hasten its universal adoption. There is no capital stock. The promoters are mainly Germans.

JUBILANT PROMOTERS.

The third time never fails at the Merchants' Exchange. At the call sales to-day fifty shares of Safety Powder Company changed hands. The promoters of the call are jubilant accordingly and predict success with little time to get down to their beanings.

NO TIDINGS.

The revenue cutter, Richard Rush, returned this morning. She cruised in the vicinity of Westport and twenty miles beyond, but found no indications of the reported wreck of a steamer.

Damage by Floods.

NEW ORLEANS, February 15.—The steamer Mike Davis, from the overflowed section on St. Francis river, reports great damage. The boats are removing families and stock to safe places.

THE REPUBLICAN.

Directory of the New Administration Proper.

[Associated Press Dispatches.]

CHICAGO, Feb. 15.—A Washington special says that the following Board of Trustees were elected under the new ownership of the Republican: Hallett Kilbourne, G. C. Gorham, Frank Hatton, F. B. Conger, Wm. A. Patton, R. G. Dun and Geo. Bliss. The new names of the directory are Frank Hatton, of Iowa, First Assistant Postmaster-General; Wm. A. Patton, of New York, representing some New York capitalists; Robt. G. Dun, of Dun, Barlow & Co., and Geo. Bliss, of New York, a large capitalist and active lawyer, a life-time personal friend of President Arthur, and the man who is supposed to

KNOW MORE SECRETS

Of the Administration than any member of the Cabinet, and who has been appointed by the President special counsel to take charge of the Star-route cases. It remains to be seen whether this paper will pursue the same course towards the Star-route prosecutions that it has from the beginning. It would be curious to see a newspaper of which Geo. Bliss is trustee and in the control of the stock which he is supposed to have acquired, attacking the Star-route prosecution, of which he is himself the chief. There are those who say it has never been the intention of the Administration to press the Star-route suits. Evidently Gen. MacVeagh is one of those who hold this view. Possibly the course of the Republican will soon solve this problem.

KELLY GETS IN HIS WORK.

Tammany Goes Over to the Republicans in Both Houses.

ALBANY, Feb. 15. — Tammany goes over to the Republicans in both Houses of the Legislature. In the Senate Mr. Pitts called up his resolution to vest the appointment of committees in the Lieutenant-Governor. The three Tammany Senators voted with the Republicans and adopted the resolution, and the Lieutenant-Governor will now appoint the standing committees.

A CLERK ELECTED.

Johnson was elected clerk of the Assembly this morning by Tammany supporting him.

Senator Wagner's Successor.

SCHENECTADY, Feb. 15. — Charles Stanford was nominated by the Republicans to fill the vacancy caused by the death of Senator Wagner, who was killed in the Spuyten-Duyvil creek railroad disaster.

Off for China.

BOSTON, Feb. 15.—The body of the late Ko Khun Kea, Professor of Chinese at Harvard University, has been enclosed in a leaden casket and sent to China.

Refugees from Russia.

PHILADELPHIA, Feb. 15.—At a meeting to-day called by the Mayor to make provisions for the Jewish refugees from Russia, five thousand dollars were subscribed, and another public meeting is soon to be held.

DEATH OF AN ACTOR.

John McDonough, the well known actor, died this morning.

Riddleberger-Smith.

RICHMOND, Feb. 15.—A hostile correspondence is in progress this evening between Senators Riddleberger and Smith over reflections in the Senate Chamber to-day.

LATER.

The Smith and Riddleberger difficulty has been arranged to the satisfaction of all parties.

The Bishop of Montreal.

MONTREAL, Feb. 15.—The Catholic Bishop of Montreal has served notices to quit on all the tenants of church property selling liquor.

A Mountain Falling.

ASHERVILLE, N. C., Feb. 15.—Information from Bald mountain states that yesterday a fearful crash was heard in the neighborhood of Bakersville. A rumbling noise preceding the crash was heard for miles. Investigation developed the fact that a large portion of the peak had disappeared and fallen into the fertile and beautiful valley below. A slice of half a mile square has melted away.

Change, Change.

SACRAMENTO, Feb. 15.—It is definitely understood that the Governor will appoint State Senator Wm. Johnston to a place on the State Board of Equalization, made vacant by the resignation of M. M. Drew, who will resign as soon as he is confirmed as United States Marshall. Johnston is a citizen of this county, a leading farmer and prominent in the grange organization.

TERRITORIAL ITEMS.

[Silver Belt, Globe District, A. T.]

Silver District, Yuma county, is experiencing a boom.

Work is progressing favorably and every thing is looking well at the Sunlight mine.

People are now coming into the northern counties of Arizona by hundreds. They are mostly from the east.

The Free Press thinks the indiscriminate use of firearms in the streets of Yuma should be stopped.

The claims against the Peck mine, of Yavapai county, have been amicably adjusted, and it is expected that it will start up work soon.

WASHINGTON.

The Straw Bond Star Route Cases—Argument Closed.

The Apportionment Bill—Cannon-Campbell and Other Contestants—The Chinese and Anti-Polygamy Bills.

[Associated Press Dispatches.]

WASHINGTON, Feb. 15.—The argument in Straw-bonds Star-route case closed to-day. Col. Bliss contended that all that was necessary to be established was the existence of such facts as would justify the magistrate in sending the cases to the jury. Hines, for the defense, intimated that the prosecution of his clients by the Government was the outgrowth of private malice. The Court announced that a decision would be rendered to-morrow.

PAGE'S OPINION.

In the debate in the House to-day on the apportionment bill Page said he believed that the fact had been demonstrated that the bill of the Committee would be voted down by a large majority. The discussion had shown the fact that the members on both sides wanted fair play, and speaking for the people of California he thanked them for the earnestness and energy with which they had combatted the effort which had been made to perpetrate an injustice upon the State of California.

CAMPBELL-CANNON CONTEST.

The Committee on Election of the House last night considered the Campbell-Cannon contest. Another session is appointed for this morning, at which it is expected a decision will be reached. The opinion generally expressed is that the committee will report in favor of sending the selection back to the people of Utah. It is doubtful if such a report will be accepted by the House. Many of the best lawyers of that body are agreed that the fact of Cannon's polygamous record is not a ground upon which the House can legally deny him admission, while it is quite within the province of the House to expel him on that account. It is urged that if he should now go back to the people he would undoubtedly be re-elected by as large a majority as before and the result would be rather to add to his power and popularity in the Territory. Should he, however, be first seated and then by a two-thirds vote be expelled, he could not again be admitted to the present House if precedents are followed, nor probably to any subsequent House.

OTHER CONTESTANTS.

The case of Smyth against Robertson, from the Sixth Louisiana district, will be dismissed by the committee at its session to-day. This with the contested cases of Lonier against King, Third Louisiana district, and of Mabeson against Oates, Third Alabama district, was dismissed upon a theory voted by the committee not to go into a case in which the contestant does not claim to have received an actual majority of the votes put into the ballot boxes, the claim only being made that intimidation prevented a free election which would have resulted in the election of the contestant. Contestants, however, in each of the above cases will file a memorial asserting that the sitting member should be unseated because of improper and illegal practices at the elections. The same course will be pursued as to several other contests, which will in turn be dismissed by the Committee on Elections.

CHINESE BILL.

Senator Miller gave notice to-day that he will move to take up the Chinese bill for action as soon as the pending anti-Polygamy bill is disposed of, which may be this afternoon.

NOMINATIONS.

The President sent in the following nominations to the Senate: U. S. Consuls, Thos. Wilson, of the District of Columbia, at Nantes; Bruno Tyschuk, of Nebraska, at Vera Cruz; Geo. Gifford, of Maine, at Lonchelli.

THE NEW SECTION.

The Senate has taken up the Judiciary Committee bill for the suppression of polygamy in Utah. One new section was adopted which provides that any man cohabiting with more than one woman shall be fined $300 or be imprisoned for six months, or both, for each and every offense. The bill will pass the sentence section this afternoon, as there is no opposition.

RECALLED.

Arturo Ubico, formerly Minister Plenipotentiary to the United States from Guatemala, having been transferred by his government to Rome, had an audience to-day with the President and presented his letter of recall.

RAILROAD PASSENGER RATES.

Presuming that railroads are constructed for the express purpose of putting money in the pockets of the stockholders, the question of grading passenger fares so as to earn the largest amount of money becomes a proper one to consider. We are reminded to refer to the subject from a recollection of a statement published not long since by the Directory of an English road, giving the earnings of an equal number of cars in each of three classes into which passenger vehicles are divided in England. It was found that the third or cheapest class of coaches earned very much the most money. The exact per centage has escaped our memory. But the fact is a most forcible and unanswerable argument in favor of cheap fares for the benefit of stockholders, and of course for the benefit of those who avail themselves of the method of traveling afforded by railroads. In England there are rates so low that the laboring classes make use of the rail to pass between their homes and work, often living six to ten miles from their employment, and can make the passage for a penny or such a matter. The rates in our country, as a rule, are so high as to preclude the poorer class of workingmen from travel by rail. In Southern California and our territories the ruling rates are particularly high, and amount, to the poorer classes, nearly to prohibition. The cars come and go quite empty, while the masses of the people who desire to take a look at their neighbors and learn how the world goes in quarters remote from their homes, are obliged to sit and look on, unable to make any use whatever of the great improvement of this country, and what should be the greatest convenience to the masses the world has ever known. Our rates for through first-class tickets are about four cents per mile, exclusive of sleeper charges, but the local rates run from five to as high as ten cents per mile. But this would not be considered very objectionable if provision was made for second and third class, so that those who cannot afford the first class accommodation could get the conveyance, within the reach of their means, regardless of the sumptuousness of the upholstery upon which they are to recline. We have now but one rate for local travel, but we hope the day is not far distant, when the managers of our roads will see it for their interest to put on a local second and third class, and fill up the cars now running nearly empty, and thus at once gratify the public and secure the larger income that will be freely tendered.

TAX ON DISTILLED SPIRITS.

A bill of great interest to this section has just been presented in the Lower House of Congress by Carlisle, of Kentucky. It proposes to reduce the tax on distilled spirits produced after August, 1882, to fifty cents on each proof gallon, or wine gallon when below proof, to be paid by the distillery owner, or person having possession thereof, before removal from the distillery bonded warehouse. It provides that the tax on all distilled spirits hereafter entered for deposit in the distillery warehouses, or in special warehouses, or remaining in such warehouse at the time of the passage of this act, shall be due and payable before and at the time the same are withdrawn therefrom, except in case of withdrawal without payment of tax, as authorized by law. The bill further provides that the tax on foreign brandy, and on other spirits manufactured or distilled from grain or other materials, and imported into this country, shall be $1.50 per gallon on cordial liquors, arrack, absinthe, kirschwasser, ratafia and other similar spirituous beverages or bitters containing spirits imported into this country, $1.50 per proof gallon. This latter provision is not to take effect, however, till the President shall receive satisfactory evidence that American distilled spirits may be imported into France, having no greater duty than distilled spirits imported from that country from the most favored nations.

SOUTH CAROLINA, like California, has enacted a "no-fence" law, but the conditions there being different from what they are here, it does not operate in precisely the same way, but works hardship to the small colored holders, and is driving thousands of them from the State. In the last fiscal year the cost of boundary fences was greater by far than the whole amount of State and county taxes—the former amounting to $2,700,000, and the latter to $1,809,316.

WESTMINSTER.

A Boom in Land and Rapid Increase of Population.

To-day seemed like the beginning of a new season. The sun shone with a more pleasant warmth than it has done for some time. It is welcomed by all, as it will cause the grass to grow and revive the spirits of animals as well as men.

Another arrival of new goods at the store of Messrs Hull. They must sell them or they would have no need to buy.

The cry is more land sold, and so it goes. Other places have had their boom, and may not we? Mr. Wm. Becket has recently bought forty acres; E. P. Justice and F. T. Mundell, each forty acres; and three more applications have gone up to the Company; and there has been more inquiries for land by persons at a distance than there has been for some time. There has been some home demand for more land by one at least. Johny Kearney says he must have more—cause, increase of help. Ask the proud father, and he will tell you. There is a pair of them—and both boys. Happy parents. Joy go with them.

Our jolly expressman, Mr. Sherwood, is in good spirits. His trade is increasing, judging from the loads he takes away and brings back. "May it never grow less." The Mirror is anxiously looked for, as also is the sketch of Westminster, by Cambro. Send it along John. It will be read with pleasure. C.

The Greater of These is Charity.

EDITOR TIMES: In looking over your issue of the 12th inst. my attention was engaged by the following items contained in the report of the Superintendent of the hospital:

Paid for provisions and medicines.....	$279 31
Paid for salaries.....	278 33
Cost per day per patient.....	39¼
Or if we deduct amount paid for salaries then we have cost per day per patient	20

Perhaps this may help to explain the following:

Total treated during month.....	70
Died during month.....	8

About twelve per cent for the month. In the same issue it is to be noticed that the city contracts to pay fifty cents per day for feeding the prisoners confined in the city prison, or the criminal is to be treated two hundred and fifty per cent. better than those whose only crime is sickness and distress.

Surely Los Angeles has need to boast of her charity, else that there was any shown might be doubted by

AN EASTERN OBSERVER.

Los Angeles, Feb 13, 1882.

Some Objectors.

In Sumatra the public do not object to telegraph poles, but the elephants do. About twenty times a year they make a raid on them. In May, 1876, a troupe of elephants tore down the poles for a distance of several furlongs, and hid the wires and insulators in the jungle, and for three nights in succession they repeated the performance as regularly as the repairers rebuilt the line. Monkeys and apes, on the other hand, are as mischievous from their adaptation of the wires for swings and trapezes, and their fondness for the glass insulators, which they carry off as prizes. In Japan smaller foes are to be dreaded in the shape of spiders, who adopt the wires as a framework for their webs. On one of the treeless plains of the Western States the buffalo looks upon the telegraph poles as specially erected to facilitate scratching, and throws himself so energetically into this favorite recreation that he knocks the posts down. An ingenious builder attempted to secure the posts from this use by inserting bradawls into the wood, but the buffalo found in this a further desire to promote his happiness, and scratched down more poles than ever. Even the submarine telegraph has its dangerous opponents, for since the adoption of cables a small worm has developed itself which bores its way through iron wire and gutta percha and lets in the water, thereby causing a loss of millions of dollars.

An English writer says that when children go astray the real moral responsibility rests, in nine cases out of ten, at the door of the parents. But the absorbing question is, "Who is morally responsible when parents go astray?"

Illinois thinks that it possesses the largest cow in the world. She is seven years old, weighs three thousand pounds, and is seventeen and a half hands high.

Smallpox has broken out with considerable violence among the railroad employees on the Sonoita line. Two cases proved fatal on Friday. Quite a number are reported down with the disease. —Arizona Star.

"There!" said Mrs. Ragbag, "I've tried four times to give that shirt away, and it's so worthless nobody'll take it. But I'll get rid of it! I'll leave it out on the clothes-line to-night."

Inhabitants—Onslaught on the Linnets—Kerosene.

Taking the Postoffice as a center, and extending in a circuit of one mile, the inhabitants of this place number about one hundred and sixty.

The onslaught on the linnets still continues. Mr. Greenwood, who is working for Mr. Turner, has poisoned hundreds of them with apples and strychnine.

I have been trying an experiment on my young trees by going over them with kerosene, applying it with a small paint brush, to see what affect it would have on the small insects. I will report in my next whether it kills the insects or the trees—or both. B.

EAGLE CORPS.

A Pleasant Party at the Armory Last Night.

The Eagle Corps gave one of its pleasant little parties last night. The Armory was crowded with beauty and gallantry, and everybody seemed to enjoy themselves. Dancing was kept up until a late hour. J. Bloeser acted as floor manager and master of ceremonies. The city band furnished the music.

Wife Beating.

About eleven o'clock last night loud calls for help came from a house on Wilmington street. Officers Willing and Dobson were in the neighborhood, and started out to investigate. They soon found the place and found a little painter thrashing his wife. He began to cry and eat peanuts, and kept up the racket until he got to the city hotel. He will be before Judge Adams to-day.

A Sock Thief.

M. Dunne was arrested last night by Officer Dolson for stealing socks from a French laundryman in a saloon near the U. S. Hotel. The Frenchman put his bundle down for a few minutes, and when he returned Mr. Dunne was filling up his pockets with the socks. He will be tried to-day.

THE CORNER STONE.

A Very Imposing Ceremony Yesterday Afternoon.

The Laying of the Corner-Stone of the Presbyterian Church—Dr. Hill's Address—Coins Deposited, Etc.

For the past few weeks work has been progressing rapidly on the Presbyterian church on the corner of Fourth and second streets. The following description of the building will be of interest to the readers of the TIMES.

The exterior dimensions of the church will be sixty feet wide by ninety deep. The main audience room will be sixty feet square and forty-two feet high. The floor will descend towards the pulpit two feet nine inches. The organ gallery in the rear of the pulpit will be 12x16 feet with groin arched ceilings, the interior of church proper arched and moulded. The pews will be semi-circular, on the opera house plan, and will have a seating capacity of five hundred. There will be twelve arches in the rear, opening with patent rolling blinds into the lecture room, which will be 28x40 feet, with fifteen feet ceiling, and also opening into two parlors on the second floor, which will serve the purpose of a gallery, each 22x28 feet, and fifteen feet high, the whole of the rear part having an additional seating capacity of four hundred. The main entrance will be from Second street, eight feet wide by twenty long. There will be entrances also from the corner of Fort and Second streets into a vestibule twelve feet square, and another entrance on Fort street will lead into the pastor's room 12x12 and the gallery. A broad circular staircase from the lecture room on the first floor opens into the pastor's study on the second floor, which will be 11x19 feet, also into the primary class rooms, cloak and music rooms. In the rear of the pulpit will be two galleries finished in gothic arches which will seat eighty persons. The external height of the church will be sixty-five feet from the level of the sidewalk to the apex of the roof. The highest point of the spire will be 150 feet, surmounted by the angel Gabriel with trumpet.

The general architecture of the building will be gothic, with brick foundation four feet six inches from the base to the level of the floor, two feet nine inches above level of the ground, the superstructure of frame. The main windows will be five feet wide by twenty-two high with diamond lights of stained glass. The outside finish over the arched entrances will be elaborately ornamented with columns, carvings, etc. The general plan of the church is exceedingly well arranged and the whole design reflects great credit upon the architectural skill of its projector, Chas. W. Davis, and although less costly than many church edifices it will undoubtedly be the handsomest and best arranged house of worship in the State south of San Francisco.

Yesterday afternoon at four was the time set for the very imposing ceremony of the laying of the corner-stone. And long before the time, a large concourse of people had gathered around the new building. The Rev. J. W. Ellis, pastor of the Presbyterian church in a few brief remarks stated the nature of the ceremony.

A male quartet under the leadership of George Mannon sung.

The Rev. Charles Branby then read a chapter from the Bible touching on the business in hand.

The quartet sung "The Lord is in His Holy Temple."

The Rev. Dr. Hill of Kansas City, Missouri delivered a prayer invoking the blessing of the Superior Being.

After which the quartet sung a chant—"How Amiable are Thy Tabernacles."

The Rev Dr. Hill delivered the address.

He said that the immense concourse of people assembled had met for no ordinary purpose, but the laying of the corner stone of any building dedicated to the worship of the Almighty was of much more importance than the most of people imagine. When people first think of constructing a house they look around for the best place. But under these circumstances it is more important; it is a home for the soul on earth. When the pioneer came across the plains to this coast they were satisfied with a tent to worship in, but now that people are able to build better dwellings they of course want better churches. He believed that there was no place in this world where people should have such pleasant homes as in the place where the God of the Universe is worshipped. He referred to the happiness enjoyed by Christians in the house where they worship. He referred to the beauties of this city and the magnificent spot that had been selected by the congregation for their church, and hoped that it might stand for many years.

The Rev. Mr. Ellis then read the following list of articles to be deposited in the stone.

The Daily and Weekly Herald, Daily and Weekly Express, Daily Commercial, DAILY TIMES, Sued Californische Post, La Cronica, L'Union Nonvelle, MIRROR, Semi-Tropic California, The Light, Mirror Annual; Occident, San Francisco; Interior, Chicago; Presbyterian Herald, Semi-Weekly New York Tribune, Country Gentleman, Gardiner's Monthly.

ABOUT TOWN

L. J. Rose, of Sunny Slope, was in the city yesterday.

The last teams were expected last night. After a few days' rest A. E. Lotte, the agent, will proceed with them to New Mexico.

A VETERAN JOURNALIST.

A Nestor of the Press on a Visit to Southern California.

A. W. Francisco, Esq., late of the Ohio State Journal, Columbus, who has arrived in Los Angeles, accompanied by his wife and little daughter, on a tour of health, pleasure and observation in California, is a very Nestor of the press. When, a few weeks ago, he got out of the harness of "the fourth estate," he rounded up with honor and satisfaction a remarkable journalistic career, covering a period of nearly forty years in all capacities. And yet to look at him now, he does not appear to be so old; and he has more life in him to the square inch than half the press gang who are still "chained to the rock."

Many years back Mr. Francisco was business manager of the old Cincinnati Times, when that then famous newspaper in the Great West boasted a weekly circulation bordering on 80,000 copies. Ten years ago he went to the State capital, and in conjunction with General James M. Comly, present American Minister, resident at the Hawaiian Islands, and others, took hold of the State Journal, building up to a splendid success that old paper, which, for seventy years, has held a foremost position among the strong journals of that grand Commonwealth which was carved out of the Territory of the North-west and forever dedicated to freedom by the immortal Ordinance of 1787. In the language of the paper itself, "The State Journal began with the pioneers, and its history is coincident and interwoven with the history of that steady progress which has developed a thriving city of 50,000 inhabitants, and conquered from the primeval forests a great territory teeming with agricultural wealth, smoking with busy furnaces and manufactories, netted with lines of great railways, and in the bosom of which lies nestled vast deposits of iron and coal, just in the infancy of their possible development—all constituting wealth-yielding factors which presage additional millions of population and added millions of material wealth, when a few years more of restless activity have brought into life all the latent, hidden resources of the great Scioto Valley."

We give Mr. Francisco very kindly welcome to the Golden Shore, and trust his stay among us may bring him health, pleasure and profit.

THE PERRY PROGRAMME.

The Preparations Progressing—Personnel of the Performers.

The TIMES takes great pleasure in presenting to its readers this morning the programme of the Perry concert. An event so popular as the present, or so absorbing in interest, rarely occurs to this community and Los Angeles is waiting impatiently for the date to arrive. Miss Perry has procured the best assistance possible to be had, and the rehearsals denote the thoroughness of culture which marks the participants. The matter most to be regretted in the case is the want of a hall suitable to the occasion, the best hall of this city being too small to accommodate more than half the persons who would attend if it were possible. Following is the programme:

NEWPORT.

A Hopeful Prospect of Good Crops—New Comers—Apples, Etc.

The late rains have started the plows in every direction, putting in barley and wheat, and preparing the ground for corn. There is no longer a doubt but that there will be a good crop raised in this valley.

There is scarcely a day but new comers are arriving in the neighborhood. Among the more recent arrivals I may mention Mr. Price and family, from Colorado, who are very much pleased with this county. Also, Mr. J. Crone, one of the first settlers in this locality, but who two or three years ago moved to Kern County, but like the prodigal son, has returned and is more than willing to stay among us.

Mr. J. H. Moesser has just sold to Mr. I. Chandler about fifty boxes of apples, which will be shipped to Arizona, he receiving four dollars per hundred. Mr. Moesser informs me that he has forty or fifty boxes more.

There has been a man around Santa Ana and this neighborhood for the past three weeks hunting for the man who would dare to call this semi-tropical California—he has but one blanket. W.

TOO MUCH HASTE.

How a Driver Takes a Fly and Falls On His Head.

Yesterday afternoon a boy driving a fertilizing wagon turned the corner of Spring and Temple streets with a swing that upset his calculation and sent the gay man on his head. The two wheels on the left side gave way letting the wagon down and very nearly killing the driver, as some of the bystanders thought, but after a few minutes he picked himself up and went off feeling that he would never turn a corner in such a hurry again.

The Weather Report.

Observations taken by the U. S. Army Signal Service at 8.15 o'clock last night are as follows: Barometer, 30.17; Thermometer, 51 dew point, 40; Wind, NW; 5 miles per hour; cloudy. Maximum thermometer, 68; Minimum thermometer, 45.

MURDERED.

A Shooting Scrape at Orange Yesterday Morning.

Fred Reuter Shot and Instantly Killed by Thomas Hulse—An Old Grudge Between the Two—Examination To-Day.

[Special Dispatch to the TIMES.]

SANTA ANA, FEB. 15.—This morning at nine o'clock, Fred Reuter, of the firm of Reuter & Godkofer, brewers of this place, was shot and instantly killed by Thomas Hulse at Orange. It seems that there has been an old grudge between the two men for some time. Last Friday night the feud was renewed at a ball and hot words passed between the two. They were separated however and did not meet again until

THEY MET

by chance at Hunt's blacksmith shop, at Orange, when the quarrel was again begun, and abusive language indulged in.

Reuter grabbed Hulse by the throat. Hulse broke loose, drew his pistol and fired the fatal shot. The ball took effect below the sixth and seventh ribs and entered the heart. A physician and Reuter's wife were sent for immediately but did not arrive until he was dead, as he died in a few minutes after

THE SHOT

was fired. A Coroner's Jury was summoned in the afternoon, and soon returned a verdict of death by a pistol shot fired by Thomas Hulse. The deceased was a German, thirty-six years old and leaves a wife and child. He has resided here six years, has been a good citizen, and was well liked by everybody. Hulse claims that he fired the shot in self-defense. Just after the shooting he left Orange for this place

GAVE HIMSELF UP

upon arrival, and the preliminary examination will take place to-day before the justice of the peace at Orange. Over fifteen persons were present at the shooting, and it is supposed that the examination will take up considerable time. There was a good deal of excitement at Orange all day, and the friends of the deceased in this place are very bitter against Hulse.

PERSONAL MENTION.

Admiral Polhamurs, of the Wilmington and San Pedro Navigation line, was in town yesterday, looking as well as an old sea-dog could away inland from the bounding billows. "What are the wild waves saying, Admiral?" quoth we. "Things are propitious," he replied, "and many argosies from far and near are bearing their burdens to us, and if Neptune's smiles continue we prophecy for the future a brighter record even than our shining past." 'Tis well, and long live the genial Admiral to see it.

Chas. Seyler, present traveling auditor of the C. P. R. R. Co., was in town yesterday. He will be remembered as the long time agent at Wilmington of the S. P. R. R. His promotion was a deserved one and it will honor the company to keep him rolling upward, even to the top of the ladder.

Mr. Eli Cannon and wife, of Cleveland, Ohio, who have been visiting relatives in Artesia for two or three months, will soon return home. They are favorably impressed with Southern California, and may possibly conclude to cast their lot in this country ere long.

Major Bonebrake and C. L. Fisher will leave in two or three days on an extended visit through the northern part of the State, taking in Stockton, San Jose, San Francisco, and other cities, in the interest of the Pacific Wagon Company.

J. F. Evans and E. P. Madison, two prominent citizens of Council Bluffs, Ia., are in the city, registered at the Pico House.

A concert will be held at the University on Friday night of next week, under the auspices of Prof. Chas. E. Day.

Mrs. Tom Barnes was the recipient of the twenty-fifth pair of gloves at Fox & Koster's the other day.

Cards were issued yesterday for the nuptials of J. J. Woodworth and Miss Glen Fox.

L. H. Washburn, from Muscatine, Iowa, went up to San Francisco last evening.

CONFIDENCE.

The Boys Making Grand Preparations for Their Entertainment.

On the evening of February 22d the Confidence Engine Company will give one of their interesting entertainments and balls. They are straining every nerve to get up a good literary and musical programme. They have got some of the best local talent in town and are sure to make the entertainment a success. Prof. Dorego has kindly consented to perform.

Conundrum.

When entertainments are given by our local talent why cannot the reserved seats be disposed of in an honest manner? In at least two of the entertainments given within a short time the box-sheet has not been thrown open to the public until the desirable seats have been distributed privately. This has occurred even when the seats have been paid for in advance.

A VICTIM.

[We do not know of the grievance of which our correspondent speaks, but trust that he has been a victim of circumstances which may be satisfactorily explained.—ED.]

SANTA ANA CORRESPONDENCE.

Shake—Building—The Troubles of the Orange Grower Depicted.

EDITOR TIMES:—We congratulate you on the success you are making in running the LOS ANGELES DAILY TIMES, it is improving all the time, people are becoming more and more pleased with it every issue. It is bound to be the leading journal of this end of the State.

Santa Ana is well pleased with its new paper, the semi-weekly Standard, and hopes before many years to have it daily. The editor, T. S. Harris, is engrafting himself into the good will and respect of our best citizens and proving by his labor that he is the right man in the right place.

Last Friday night we had another beautiful rain, over an inch fell, and we are now sure of plenty of hay and feed through this valley, so it will banish from off our minds the horrible forebodings of the evils attending a dry season.

Building is still going on to a great extent both in town and in the country. Preparations for quite a number of new brick buildings are being made and in the spring we shall undoubtedly add much to our already beautiful town.

Mr. Duncanson, a merchant from Anaheim, has just moved here and has rented a new brick store in which he is putting a large stock of general merchandise.

The leading topic of conversation through this town and valley just now is concerning the great injustice done orange growers by the rules and regulations just adopted, relative to the shipping of fruit. Their being compelled to wash oranges and orange boxes with a filthy solution of whale-oil soap, etc., irrespective of there being any insects of any kind upon them is perfectly absurd, as well as costly and troublesome. There can be no danger of the people who buy oranges getting affected with the scale bug even if one did happen to get shipped in a box of oranges, and as for new boxes being washed it is foolish. Let a strict inspection be made of the orchards and those affected compelled to use the most stringent means to rid them of the pest; let all trees, cuttings, or old boxes sent into the country be inspected and if any signs are found dealt with accordingly, but not interfere with the fruit. Again parties often want, for convenience, to pick and ship a few boxes, but as they are compelled to obtain a certificate for every shipment and pay a dollar for it, it practically lays an embargo upon it. They must arrange somehow to ship a large quantity at a time as this red tape dollar business, in addition to the high freight rates, eats up all the profits. What credit is given a man who keeps his orchard clean and free from insects? All are dealt with alike—all are put to this unnecessary trouble and expense. For instance, Dr. J. G. Bailey has a fine young orange orchard of over two thousand young trees just commencing to bear. He has spent much time, trouble and money in its care. We went over it the other day and not a scale bug is to be seen, the fruit is clean and bright, yet if he wants to ship a few boxes he must go about four miles to the inspectors, and perhaps not find him at home, he must leave his fruit out in the orchard, at no little risk, or else carry it past the depot to his home place and wait for inspection, then hire a team again to take it to the depot. Now, where if a large shipment is to be made it is of not so much trouble in comparison, but where, as is often the case, a few boxes at a time for convenience are shipped, then to add the trouble and one dollar extra each time, is unreasonable and practically compels the orange grower to sell his crop to the middle men or rather the men who can make large shipments. It is not fair. It is not just and ought to be remedied.

SHORB IN COURT.

The Third Days Proceedings in Judge Adams' Court.

The Examination Progressing Slowly—Mrs. Schlador Tells What She Knows About the Case.

Notwithstanding the precaution the defence have taken in the examination of Dr. Shorb, the testimony has been given daily in the TIMES. Yesterday morning the attorneys for the defendant looked under every desk and through the court's pockets for a TIMES' reporter, but they didn't find him because he was not there except in spirit, and of course no one can see a ghost, not even a lawyer, if, perchance, he is good at finding spirits of a more liquid nature. Dr. Lathrop was recalled and the entire forenoon taken up in cross-examining him as to the nature of

THE WOUNDS

found at the postmortem examination. His testimony was about the same as published in the Sunday issue of the TIMES. In the afternoon Mrs. Francis Schlador, the landlady of the house in which the girl died, was sworn. Her testimony was in substance that the deceased came to her house and took a room for a week, telling her that she was sick with a bad sore throat. After she had engaged the room she came down town and returned with her trunk. She further stated that a doctor had been engaged to

ATTENDED TO HER.

This was on Thursday, and on the following Sunday morning Doctor Shorb was locked in the room with her. In the afternoon the deceased informed her that the Doctor had delivered her of twins. On the following Tuesday she wrote two notes to a couple of young men, and they both called, one on Wednesday and the other on Thursday. She—the deceased, stated to witness that she had employed Doctor Shorb because she could get him

CHEAPER

than any other. She asked the witness what she could do for her. The deceased was so weak in the afternoon that she had to be lifted out of bed by the witness and nurse before the bed could be changed. The doctor wanted hot water twice while he was there. The witness believed the clothing was sent to the Chinaman under the instructions of the Doctor. The nurse will be placed on the stand this morning for the people.

Fell Off of a Horse.

Yesterday about noon a drunken mustang rider started out of town in the state called "three sheets in the wind," and when he got a few miles from town he fell off of his horse. He was brought to the city prison and was examined by Dr. Hannon, who fixed up his bruised head. His name was not learned.

Greatest Wonder of the Age!

NEW Electro-Medical BELT, Curing All Diseases Without Medicine.

C. N. WEST, the inventor and half owner of the "Horne and West Belt," has invented another belt, so much better and cheaper, that it will supercede all other electrical appliances for the cure of disease. We challenge the world to produce its equal—Physicians approve and use it. All persons suffering from *Rheumatism, Nervous or General Debility, Paralysis, Kidney or Back Troubles, Ague, Pile, Indigestion, Rupture, Neuralgia and Liver Complaint, Catarrh, Impotency, Male and Female Troubles* of every kind, and all other *Chronic Ailments*, will recover health in using this Belt. So cheap the poorest sufferer can buy it. Price, $5, $6, $8 to $20. Also, Electrical Bands for arms and legs, unrivaled for curing *Rheumatism* and like diseases. Price, $5 to $10 per set—all sent C. O. D. to any order. Send for circulars. Address,

C. N. WEST, 23 Kearny St. San Francisco, Inventor and Sole Proprietor.

FOR SALE,

A ONE HALF INTEREST IN THE

Horne & West

ELECTRO-MAGNETIC BELT.

THIS IS THE same belt which is now manufactured by W. J. Horne, and which he is extensively advertising as the W. J. HORNE BELT. This Belt was invented and patented by myself. Afterward I assigned one half interest in this Belt to W. J. Horne, which he now owns in common with me. This Belt has taken two premiums at State Fairs; but as I have invented another BELT, of double the power of the HORNE & WEST BELT, and much superior to it in every respect, and which I make and sell for ONE HALF the cost of the old Horne & West Belt, I will sell my one-half interest, in the Horne and West Belt cheap for cash. Any person meaning business call at my
